

MASONRY

Construction

& Inspection Certification WORKSHOP

The Masonry Construction & Inspection Certification Workshop
is supported by a grant from the Florida Concrete Masonry Education Council

2023 Masonry Workshops 2-day In Person

www.masonryworkshop.com

COURSE DESCRIPTION

Whether designing, building, testing or inspecting, when you're working with masonry, understanding all of the codes and specifications governing the various masonry components (block, brick, grout, mortar and steel) is essential. Equally important is understanding the role of each of the team players involved with a masonry project. Unique in its big-picture approach to masonry it offers the latest information on all aspects of Design, Workmanship and Materials. Members from the entire masonry family, from building inspectors and architects to masons and engineers, are in attendance at each class. The course instructors are 5 distinguished members of our industry each with a lifetime of "on the job" experience. Instructors present both basic and up-to-date issues in their field while focusing on how each discipline works with the others to ensure quality masonry.

CONTINUING EDUCATION

15 CEU Hours for CILB, PE & AIA Florida Members

NEW CODES & STANDARDS

Workshop covers all the new codes and

standards used in masonry: TMS 402/602 {Formally ACI 530/530.1}; Updated ASTM Standards referenced by the 7th Edition Florida Building Code; Updated BIA and NCMA Tech Notes; changes to the Florida 7th Edition masonry chapter and much more!

DAY 1

8:00 AM—5:00 PM

Introduction to the *NEW* Masonry Workshop—Don Beers, PE

Clay Brick—Lisa Pelham, Oldcastle

Specifications & Testing for Concrete Masonry—Greg Moody, CEMEX

Mortar & Grout - Jeff O'Leary

Stucco Bonding Issues—Mike Starks, In-spex, LLC

Preventing Moisture Intrusion—Don Beers, PE

DAY 2

8:00 AM—5:00 PM

Introduction to TMS 402/602 Plus 6th Edition FBC—Don Beers, PE

Masonry vs. Hurricanes & Tornadoes—Don Beers, PE

TMS 402/602—2016 Pt 1—Don Beers, PE

TMS 402/602—2016 Pt 2—Don Beers, PE

Key Inspection Points in Masonry Construction—Jerry Painter, FASTM & Don Beers, PE

Role of the Mason—Jerry Painter, FASTM

Q & A Session—Jerry Painter, FASTM & Don Beers, PE

Masonry Workshop Certification Exam

DATES:

April 27 - 28, 2023—Orlando
September 2023 - Module I @ the MAF Convention (Location TBD)
December 1 - 2, 2023—Orlando

LOCATION:

FC&PA | 6353 Lee Vista Blvd.,
Orlando, FL 32933

COST:

\$399/person
