

MASONRY Construction & Inspection Certification WORKSHOP

The Masonry Construction & Inspection Certification Workshop
is supported by the following organizations:

Masonry Workshop Webinars—2023

REGISTER: www.masonryworkshop.com

COURSE DESCRIPTION

Whether designing, building, testing or inspecting, when you're working with masonry, understanding all of the codes and specifications governing the various masonry components (block, brick, grout, mortar and steel) is essential. Equally important is understanding the role of each of the team players involved with a masonry project.

Unique in its big-picture approach to masonry it offers the latest information on all aspects of Design, Workmanship and Materials. Members from the entire masonry family, from building inspectors and architects to masons and engineers, are in attendance at each class. The course instructors are 5 distinguished members of our industry each with a lifetime of "on the job" experience. Instructors present both basic and up-to-date issues in their field while focusing on how each discipline works with the others to ensure quality masonry.

CONTINUING EDUCATION

15 CEU Hours for CILB, PE & AIA Florida Members

NEW CODES & STANDARDS

Workshop covers all the new codes and standards used in masonry: TMS 402/602 {Formally ACI 530/530.1}; Updated ASTM Standards referenced by the 7th Edition Florida Building Code; Updated BIA and NCMA Tech Notes; changes to the Florida 7th Edition masonry chapter and much more!

COMPONENTS

Component 1

Introduction to the *New* 2021 Masonry Workshop – Don Beers

Clay Brick -- Lisa Pelham
Break

Hurricanes and Tornadoes – Don Beers

Component 2

Misc Masonry – Don Beers

Mortar and Grout – Jeff O'Leary
Break

Stucco Bonding Issues Block – Mike Starks

Preventing Water Penetration – Don Beers

Component 3

Specifications & Testing for Concrete Masonry Plus – Greg Moody

Intro to TMS 402/602 – 2016 Plus 7th Ed.
FBC – Don Beers

Break

TMS 402/602 – 2016 Part 1 – Don Beers

Component 4

Misc Masonry – Don Beers

TMS 402/602 – 2016 Part 2 – Don Beers
Key Inspection Points in Masonry Construction – Jerry Painter and Don Beers

Break

Role of the Mason – Jerry Painter

Q and A – Jerry Painter and Don Beers

2023 WEBINARS:

February 14, 16, 21 & 23

May 16, 18, 23 & 25

October 10, 12, 17 & 19

Cost: \$399/person

\$349/person MAF & BOAF Members
